Installation method of ㊦ screws

Be sure to tighten the screw in a vertical position for easy assembly later.

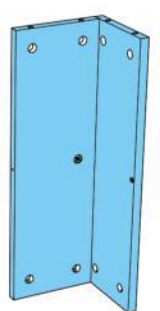

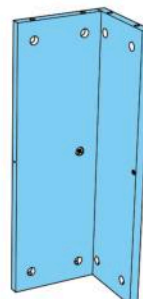

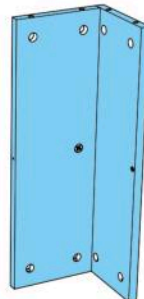

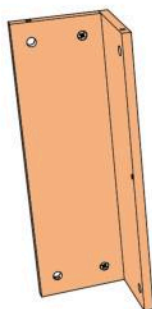

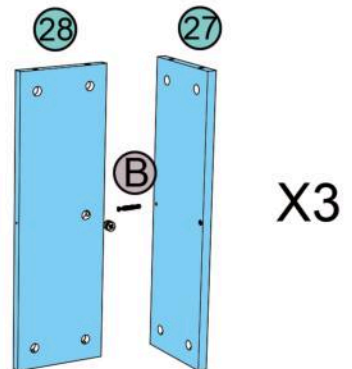

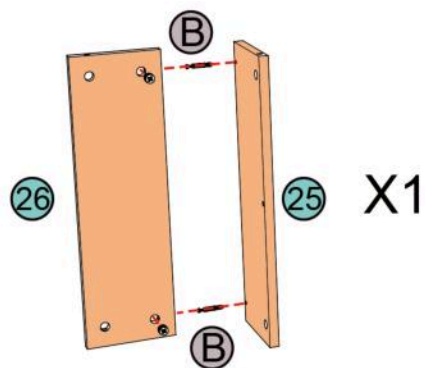

Please refer to here for all the following ㊦. ㊦ has two parts, one is long, another one is short. First, tighten long ㊦ into wood, then tighten short ㊦ into the holes as shown.

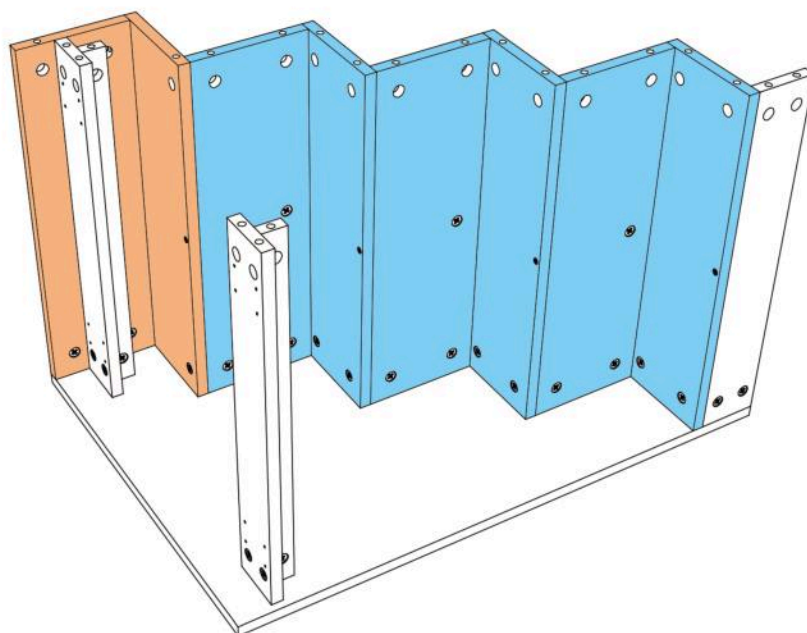

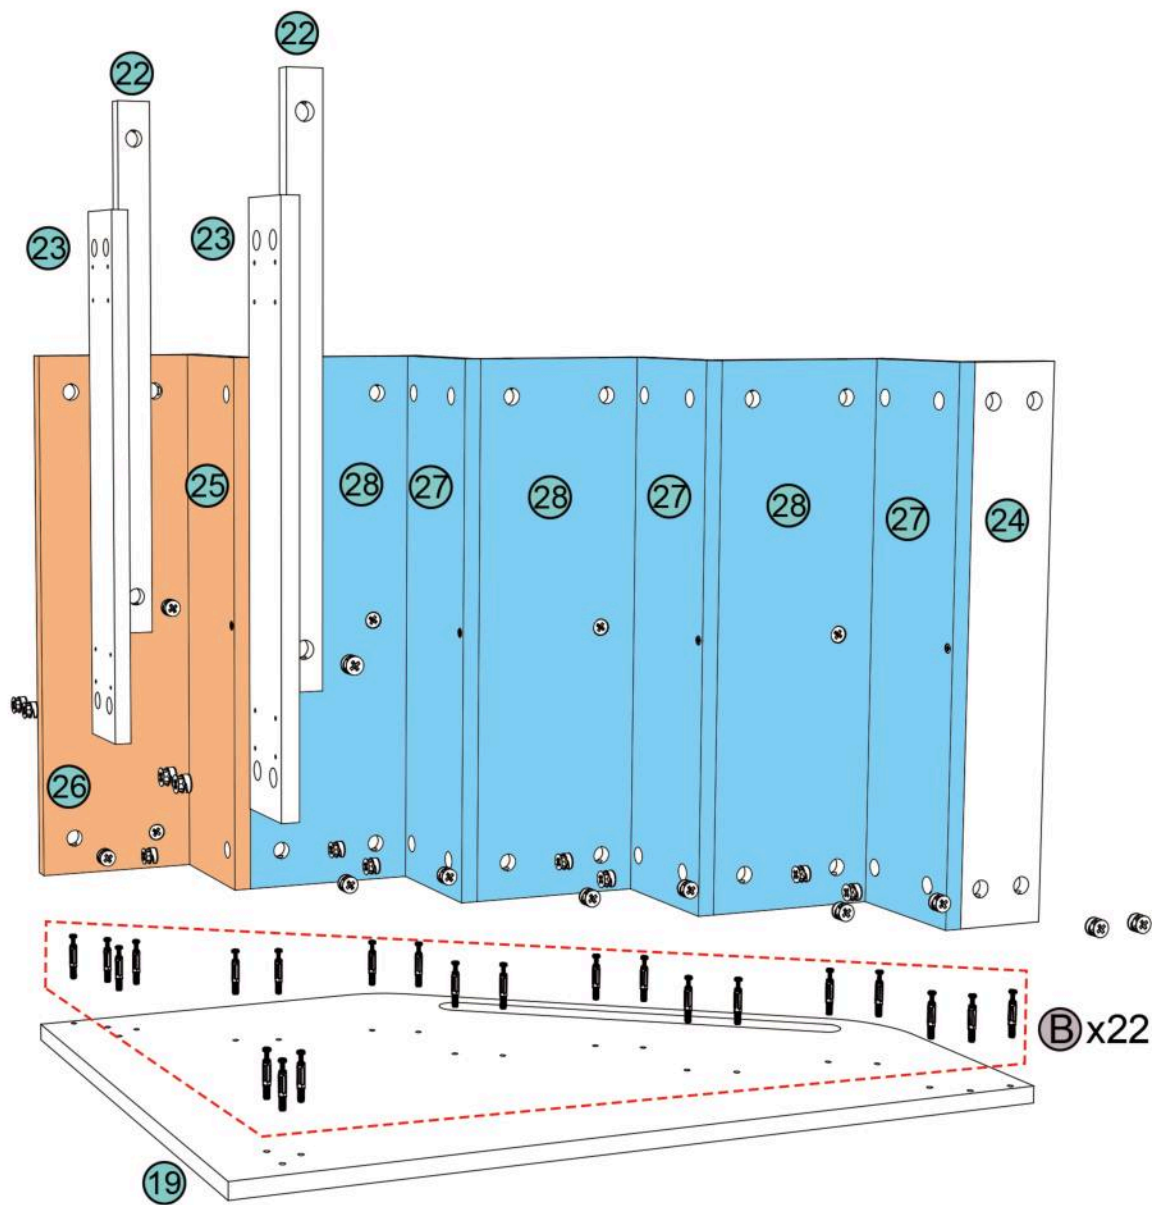

STEP 1

STEP 18

STEP 17

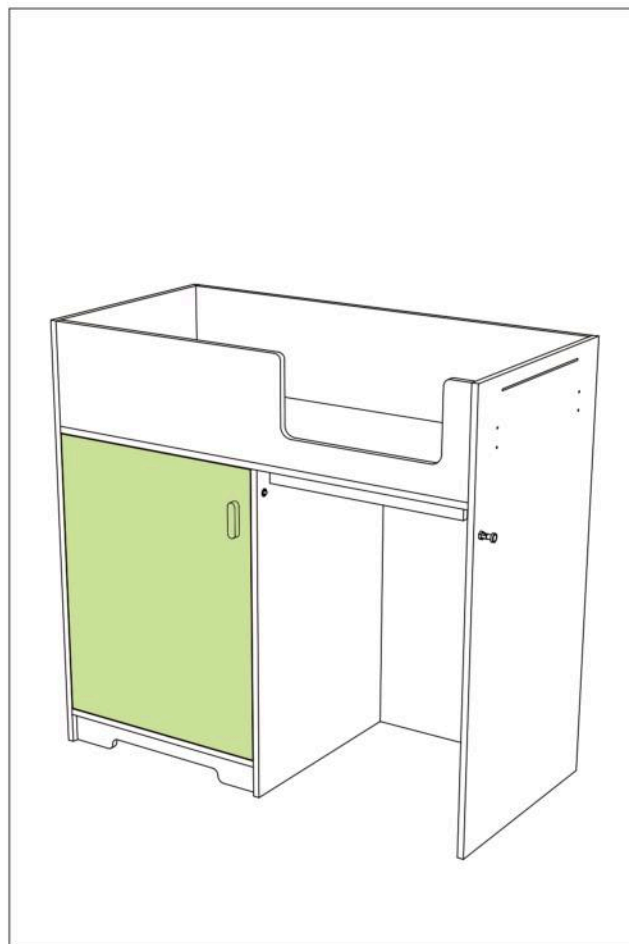

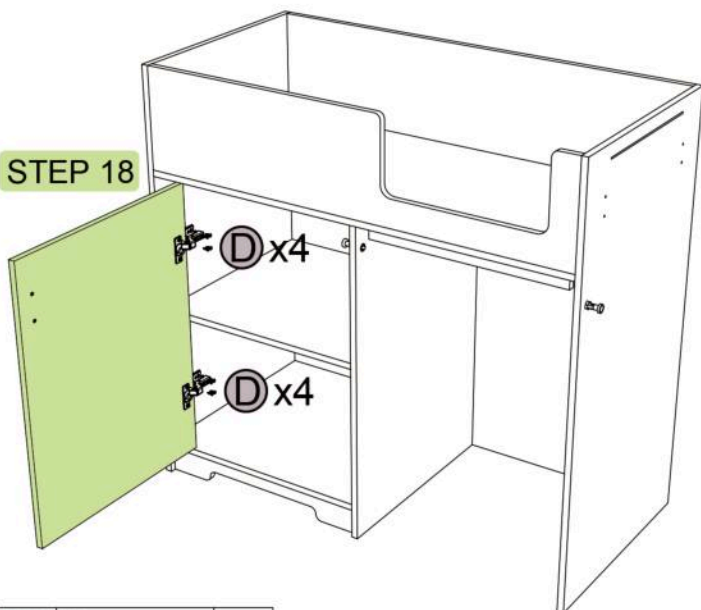

A total of 8 screws are used to attach the second side of the hinges to the changing table. Each hinge will have 4 new screws. First place 2 **D** screws into the pilot holes through the oval hole in the hinge (part **H**). Once position of door is aligned add an additional 2 screws through the round hole.

To clean, simply dampen a wipe with a neutral cleaner to wipe away stains, then use a clean, damp cloth with water to remove any residue. Do not bleach, expose to direct sunlight, machine wash, or wring. Allow to air dry in a well-ventilated area.

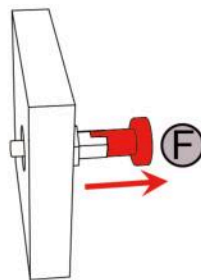

STEP 23

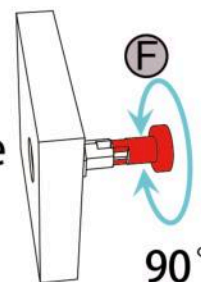

Part **F** locks the position of your steps. To pull the steps out, unlock **F** by positioning it as shown in **III**. Once steps are out, be sure to relock the position by changing **F** back to the **I** state.

Anti-Rollover Assembly Steps

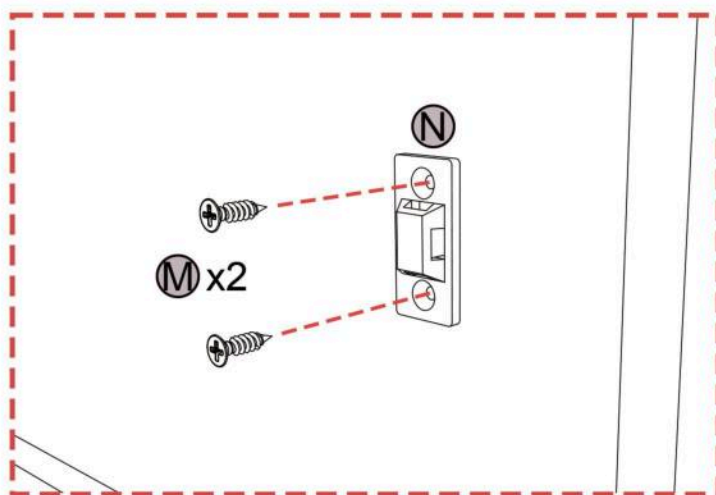

Install **N** at reasonable positions based on actual conditions. Note that the installation heights of the two **N** must be same.

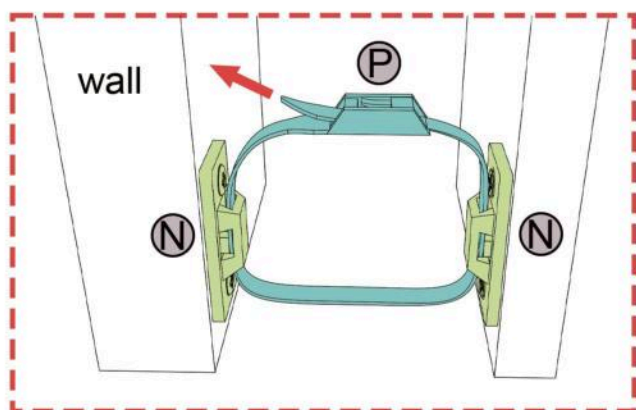

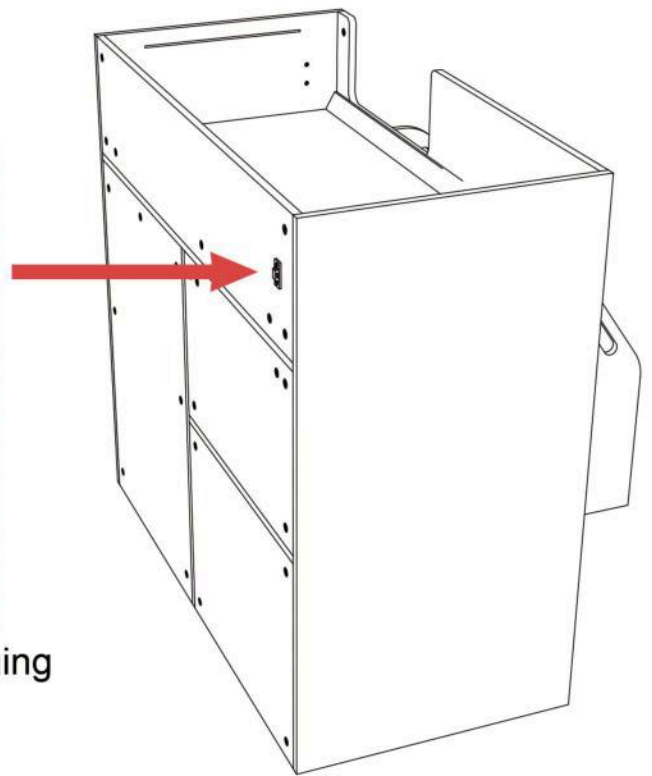

Step 1: Fix **N** to the wall.

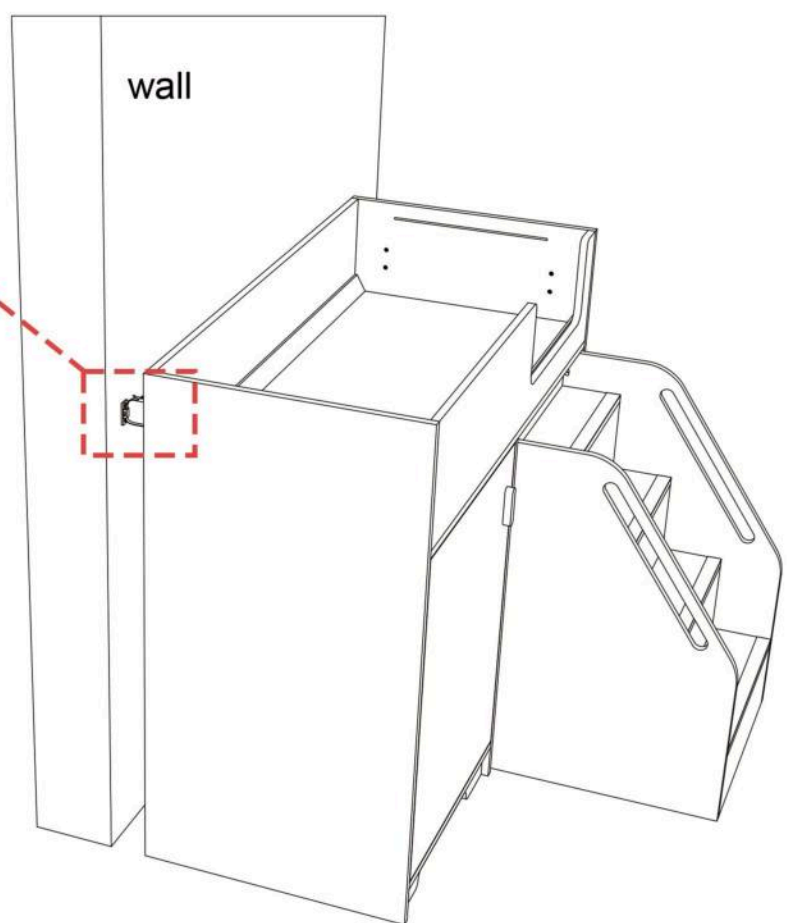

For concrete walls: Drill holes in the wall, insert expansion tube **O**, then assemble **N**.
For wooden walls: Fix **N** to the wall with screw **L** directly .

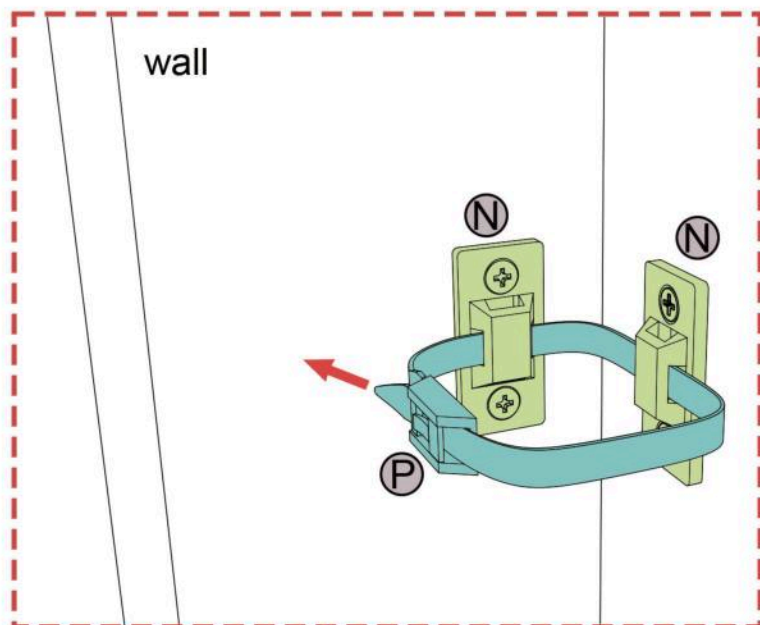

Step 2: Fix **(N)** to the upper part of the changing table backboard with screw **(M)** as shown

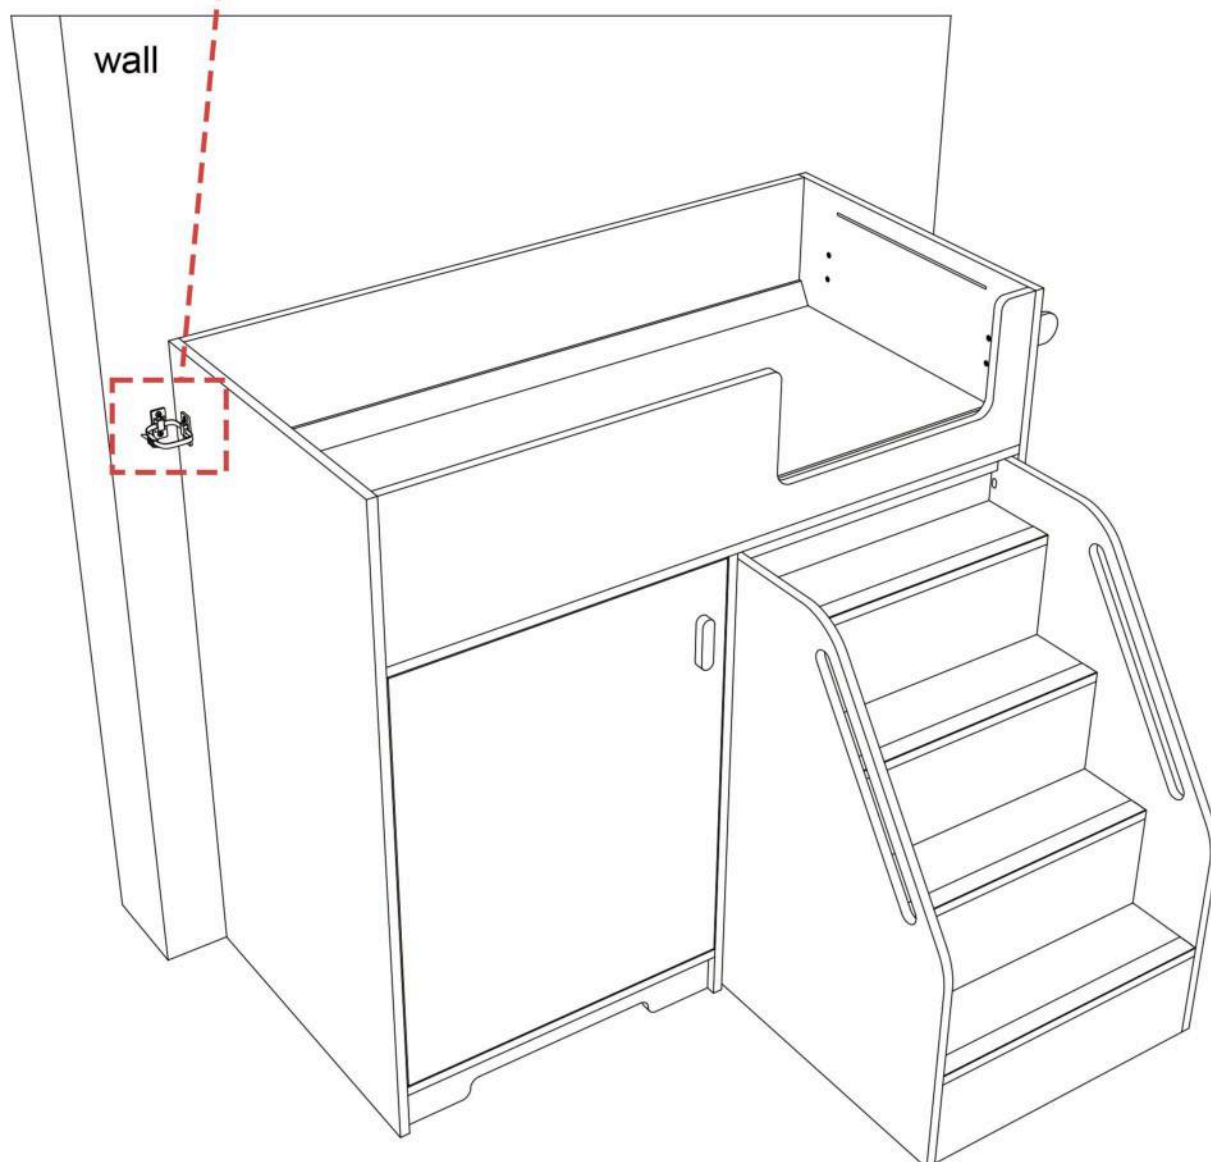

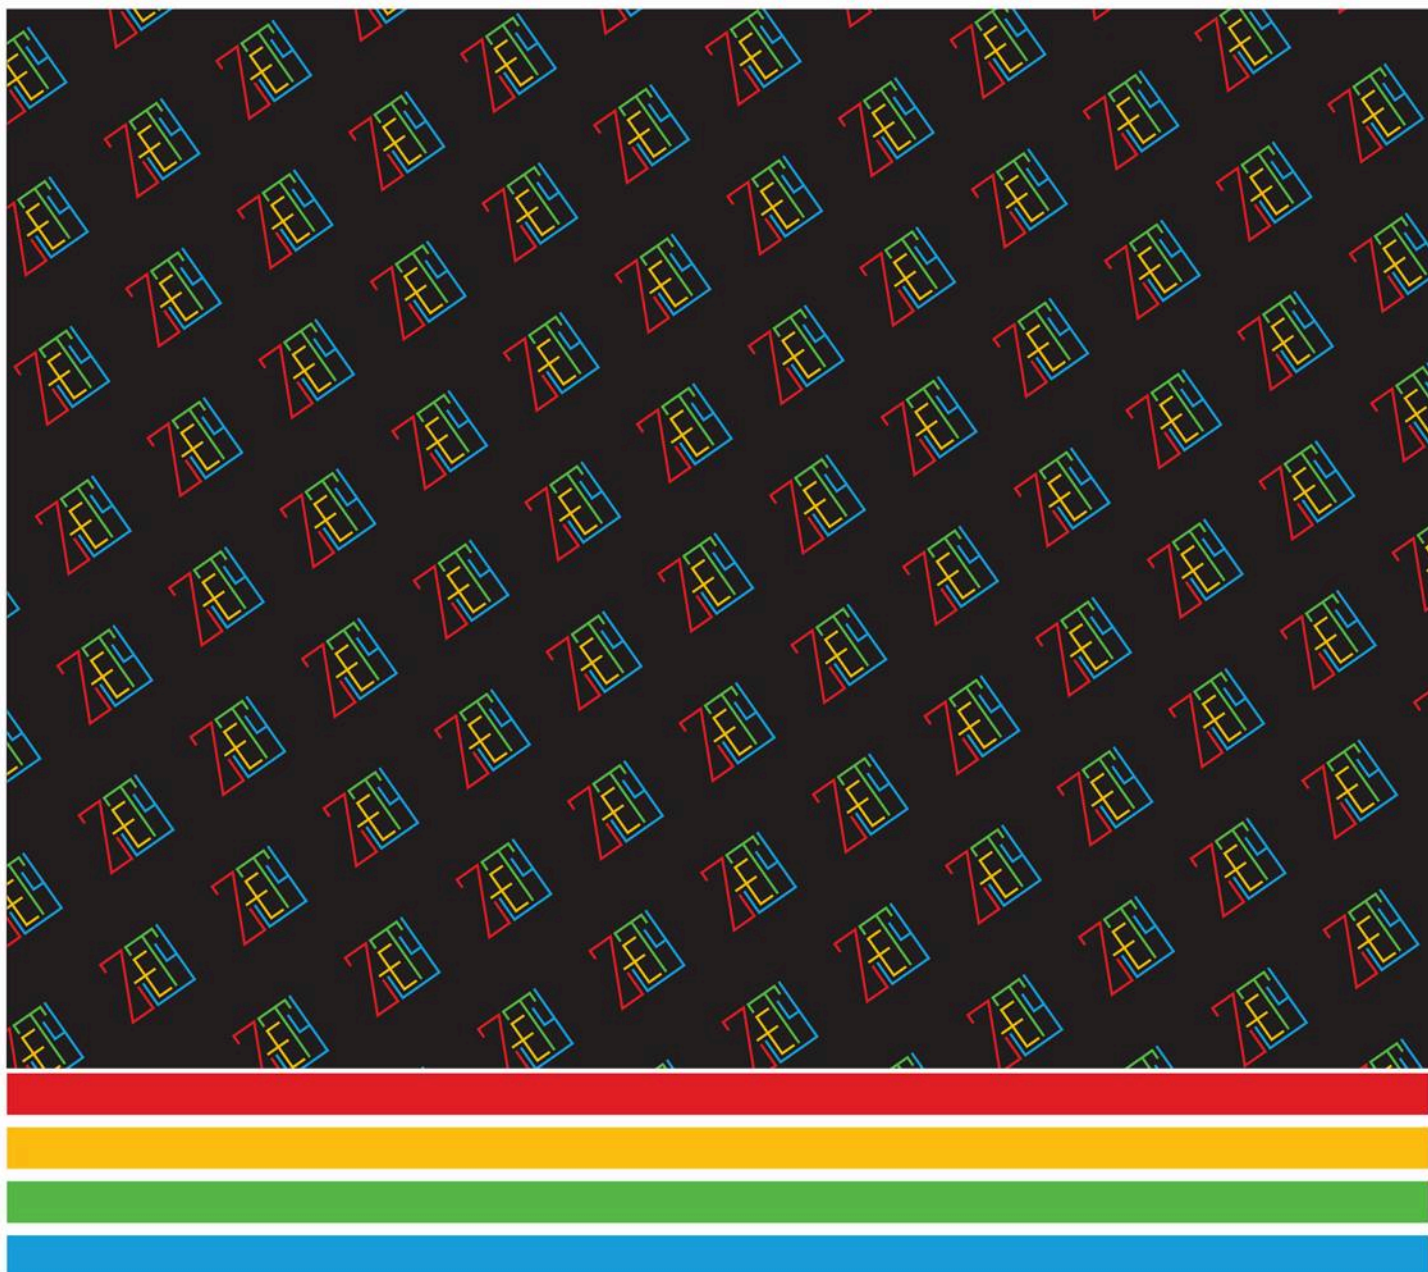

Step 3: Use **(P)** to thread the two **(N)** together, then tighten the **(P)** to complete the assembly as shown.

If you want changing table to be against the wall, you can install **N** on the side of changing table as shown.

Retain these instructions for future reference.

For questions or comments, please email us at support@zetyproducts.com.

WARNING

FALL HAZARD: Children have suffered serious injuries after falling from changingtables. Falls can happen quickly.

- Adult assembly required
- **STAY** in arm's reach of your child.
- Read all instructions before use of the product
- Keep instructions for future use· Do not use product if it is damaged or broken
- The baby's maximum weight for use of this product is 66lb (30kg)

Adult assembly required

During use, check all connections and bolts for tightness at least twice a month. Do not use if screws are loose.
